

# RAINBOW NECKLACE - COLOR MIXING

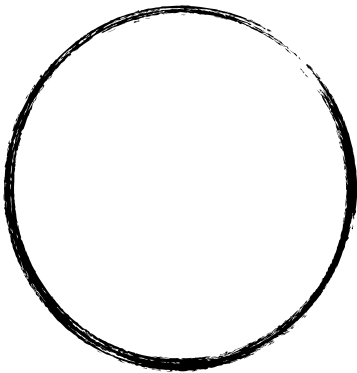

Red/Pink

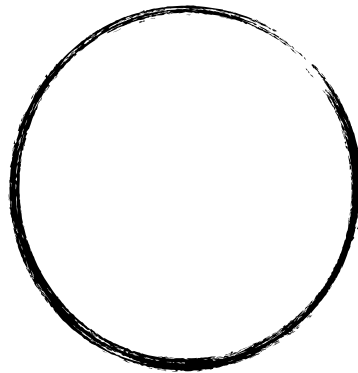

Yellow

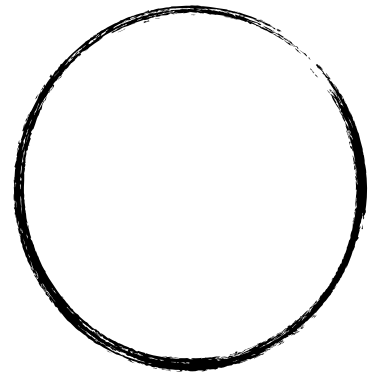

Blue

Red/Pink + Yellow = Orange

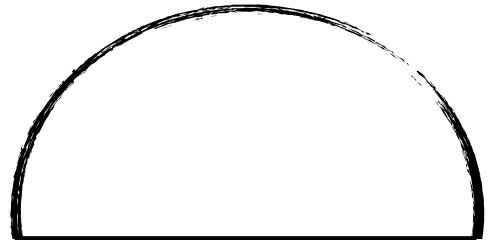

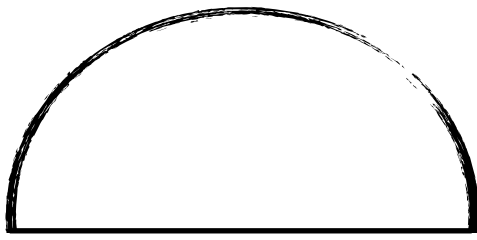

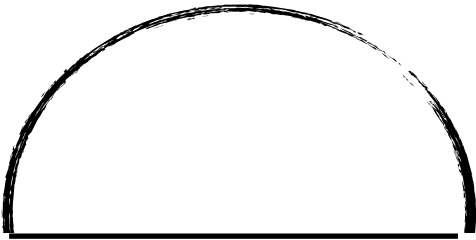

Yellow + Blue = Green

Red/Pink + Blue = Purple

Great! Now that you know how to mix all the colors in the rainbow, let's practice before trying it on your necklace! Try 3 different rainbow patterns, classic, wild, all cool colors? Up to you, have fun!

Now you are ready to paint your beads. Make sure to paint both sides. Wait until paint is totally dry before beading. Put the rainbow bead on first, then thread both threads through one bead to make it dangle just right. Wear and enjoy!
